### Organize

Easily find and view your video clips and photos in a powerful and convenient media management hub.

**New** Visually organize and find your best stuff fast in the fully featured, easy-to-use Organizer.

**New** See the full effect of your video clips and photos from within the Organizer with new full-screen previews.

Organize and manage with ease.

### Edit

Make terrific movies with less effort thanks to smart, automated options.

**New** Automatically trim away all unwanted footage, instantly fix shaky footage and color and lighting problems, and intelligently balance audio elements.

**New** Easily add cinematic flair with coordinated graphics, effects, and music in all-new InstantMovie themes created using techniques from Hollywood directors.

Edit effortlessly—with incredible results.

### Enhance

Enhance your stories with fun, stylish motion graphics, effects, transitions, themes, titles, and disc menus.

**New** Have fun with motion tracking—add graphics, text, and effects that automatically move with the subjects in your scenes.

**New** Jazz up the action with new effects and transitions.

**New** Add visual style with dozens of cool graphics, frames, animations, and more from an all-new clip art library.

Add professional-quality effects and sound.

### Share

Share your movies with family and friends via DVD, Blu-ray Disc, mobile devices, YouTube, and more.

**New** Share in exciting ways on the web via eye-catching, interactive Online Album templates.

Share virtually anywhere.
